Document Body

Hi Carmen,

As a follow-up to my earlier voice message, the City building permits for the below grade demolition work are still pending. Due to the uncertainty in the timing of the issuance of the permits the below grade demolition and soil excavation work will be deferred to 2013 (with possible commencement in April 2013). We'll keep you posted on the timing and schedule for this work.

We are however, implementing the SVE and SVE/Bioventing portion of the RAP, and the well installation work is beginning on September 24, 2012. Both systems will be operating by the end of November 2012.

Please let me know if you need any additional information.

Regards,

Linda Conlan, PG
